

The Anti Hair Slave

Healthy Hair ... All the time!

Instyler Video Review

I'm not sure if you have heard about the Instyler or not, but it's a new type of flat iron/curling iron/heat tool. It has two thin brushes on it and a rotating rod that gets hot. I recently used it to straighten out my hair, check out the video to see how it worked. Feel free to browse the other videos on my Kyte Channel if you haven't already seen them.
